

ACTIVITY:	Line ups and Demonstration
CARD SET:	13.b
MATERIAL:	A bottle of Sur Eau, water and container for mixing.
TIME:	One hour
OBJECTIVE:	To understand how water can be made safe
KEY MESSAGE:	'Change dirty drinking water to clean'

METHOD:

1. Ask four people to come forward and each hold up one of the water treatment cards, 17.10 - 17.13.
2. Discuss the different methods of making water safe.
3. Ask everyone who currently treats water to come up and stand behind one of the four cards, which represent their way of treating water. Make a note of the numbers of each. Let them sit down.
4. Demonstrate how to use Sur Eau.
5. Demonstrate how long the water must boil if it is to be purified (6 minutes).
6. Make a song up about purifying water and sing it for six minutes.
7. Discuss the use of fire wood or fuel to boil water and the disadvantages of boiling water because of deforestation.
8. Now ask the others who do not treat their water to come up and decide which way they will start to treat the water in future.

RECOMMENDED PRACTICES:

1. Take water from a clean protected water source.
2. Store your water in a clean closed container.
3. Do not drink water that is not boiled or treated.
4. If the water source is not transparent (high iron amount, after flood, drought), purify water with a filter system before treating.
5. Filtering unsafe water is not enough, it must be boiled as well to kill germs.

8.b. Utilisation de l'eau potable Serie d'image

1	Dog drinking straight from uncovered bucket (bad)	Chien buvant directement du seau non couvert (mauvais)
2	Boy drinking straight from stream, using hands (bad)	Garçon buvant directement du ruisseau, utilisant des mains (mauvais)
3	Boy drinking straight from handpump, using hands (bad)	Garçon buvant directement de pompe, utilisant des mains (mauvais)
4	Boy drinking from plastic bottle which had contained a dangerous chemical (bad)	Garçon buvant de la bouteille en plastique qui avait contenu un produit chimique dangereux (mauvais)
5	Boy drinking from a container which was a fruit juice bottle (medium)	Garçon buvant d'un récipient qui était une bouteille de jus de fruit (moyen)
6	Boy drinking straight from bucket / jug (bad)	Garçon buvant directement de seau/cruche (mauvais)
7	Man polluting water by putting hand in water (bad)	L'homme pollue l'eau en mettant la main dans l'eau (mauvais)
8	Mother giving child water with ladle (not good)	Mère donnant l'eau d'enfant avec la louche (pas bonne)
9	Mother giving water with jug (correct)	Mère donnant l'eau avec la cruche (correcte)
10	Mother boiling unsafe drinking water (good)	Mère bouillante eau potable insalubre (bon)
11	Mother filtering water with clean cloth (good)	Eau de filtrage de mère avec le tissu propre (bon)
12	Mother using a water filter (good)	Mère utilisant un filtre à eau (bon)
13	Use of Chlorine Product (Jik / Sur l'Eau) (good)	Utilisation de produits chlorés (jik/sur l'eau) (bon)
14	Children Sharing cups (not good)	Enfants partageant des tasses (pas bon)
15	Children with their own individual cups (good)	Enfants avec leurs propres tasses individuelles (bon)
16	Men sharing straws when drinking (not good)	Hommes partageant des pailles en buvant (pas bon)
17	Mother taking water from jerry can with lid (good)	Mère prenant l'eau de Jerry peut avec le couvercle (bon)
